The Space

The house was designed to maximize comfort and create an easy going lifestyle throughout the property in a relaxed and pleasant atmosphere as well as reach luxury standards in a sophisticated and discreet fashion.

Ultimate beauty and harmony were pursued while respecting the limitations of the surrounding nature, fusing local Ibizan architecture with avant guard elements.

Oriented to the South, the house unfolds over 1.200m² on three levels. The ground level boasts the double height grand living area, kitchen, terraces, porches and the spectacular 50m long swimming pool as well as a separate professional kitchen.

On the upper floor are the master bedroom and two guest bedrooms. All other bedroom suites are located at garden level.

The exterior presents itself with a vast al fresco dining area, various lounging and relaxing scenes, surrounding grass lawns, palm trees and aromatic plants, a stunning front line gym that opens completely onto the cliff and a coastal path that leads to the beach.
